Tellus

A BI-MONTHLY JOURNAL OF GEOPHYSICS

SVENSKA GEOFYSISKA FÖRENINGEN

Volume 29 · 1977

Contents — Author index

MUNKSGAARD . COPENHAGEN

Tellus

A BI-MONTHLY JOURNAL OF GEOPHYSICS
published by THE SWEDISH GEOPHYSICAL SOCIETY
© 1977 The Swedish Geophysical Society.

Editors: B. BOLIN
H. LEJENÄS
Executive Editor: M. SKÅRMAN
Address: TELLUS
Editorial Office
Arrhenius Laboratory
S-106 91 Stockholm, Sweden

Distributor: MUNKSGAARD International Publishers Ltd.
35 Nørre Søgade
DK-1370 Copenhagen K, Denmark

Printed in Great Britain at The Spottiswoode Ballantyne Press by
William Clowes (International) Limited, London, Colchester and Beccles

Contents

Vol. 29
No. 1
February 1977

M. J. MANTON: On the coalescence of water droplets in turbulent clouds . 1
I. SUBBARAMAYYA, B. ANANTHAGIRI and A. S. N. RAJU: The 5–18 October 1974 disturbances in the ITCZ over west central Bay of Bengal 8
M. R. TUCKER and D. E. PEDGLEY: Synoptic disturbances over the Nile valley north of the intertropical convergence zone 17
R. V. GODBOLE: The composite structure of the monsoon depression . . 25
A. EBEL and W. BÄTZ: Response of stratospheric circulation at 10 mb to solar activity oscillations resulting from the sun's rotation 41
U. HAMMARSTRAND and H. LEJENÄS: On initialization for primitive equation models formulated for an alternating grid 48
D. L. SPLITTLEHOUSE and E. A. RIPLEY: Carbon dioxide concentrations over a native grassland in Saskatchewan 54
C. TOMASI and F. TAMPIERI: Size distributions of tropospheric particles in terms of the modified gamma function and relationships between skewness and mode radius 66
G. HÄNEL and R. DLUGI: Approximation for the absorption coefficient of airborne atmospheric aerosol particles in terms of measurable bulk properties 75
C. QUON: Axisymmetric states of an internally heated rotating annulus . . 83

Vol. 29
No. 2
April 1977

R. F. T. SMITH and D. R. DAVIES: A note on some numerical experiments with model mountain barriers 97
F. BAER: The spectral balance equation 107
J. PODZIMEK, W. A. SEDLACEK and J. B. HABERL: Aitken nuclei measurements in the lower stratosphere 116
G. WALIN: A theoretical framework for the description of estuaries . . . 128
G. ASSAF: The Gulf Stream: Inertia and friction 137
M. HAAKSTAD: The lateral movement of the coastal water and its relation to vertical diffusion 144
J. E. WEBER: Heat and salt transfer associated with formation of sea-ice . 151
P. A. DAVIES and G. WALIN: Some further experiments with a heated rotating annulus having semi-conducting walls 161
G. I. PEARMAN: Further studies of the comparability of baseline atmospheric carbon dioxide measurements 171
B. B. HICKS and H. S. GOODMAN: Seasonal and latitudinal variations of atmospheric radioactivity along Australia's east coast (150°E longitude) 182

Letters to the Editor:

R. JAENICKE and L. SCHÜTZ: Comments on "Deposition and transformation rates of sulphur oxides during atmospheric transport over the Atlantic", by L. P. Prahm, U. Torp and R. M. Stern 189
L. P. PRAHM and R. M. STERN: Reply to R. Jaenicke and L. Schütz . . . 191

Vol. 29
No. 3
June 1977

M. I. BUDYKO: On present-day climatic changes 193
B. SALTZMAN: Global mass and energy requirements for glacial oscillations and their implications for mean ocean temperature oscillations 205
D. RADINOVIĆ: Atmospheric waves in the Mediterranean area on the basis of zonal harmonic analysis 213
R. GALL and D. R. JOHNSON: A comparison of two methods for estimating sensible heat flux in Oceanic extratropical synoptic-scale systems . . . 222
K. B. KATSAROS: The sea surface temperature deviation at very low wind speeds; is there a limit? 229
Y. OGURA: A note on the downstream variation of the lower trade-wind circulation 240
A. BAKER-BLOCKER, T. M. DONAHUE and K. H. MANCY: Methane flux from wetlands areas 245
S. C. LIU, R. J. CICERONE, T. M. DONAHUE and W. L. CHAMEIDES: Sources and sinks of atmospheric N_2O and the possible ozone reduction due to industrial fixed nitrogen fertilizers 251
L. J. SHAPIRO: Frictional effects on thermally forced waves 264

Short Contributions

S. SRIVATSANGAM: Comments on an assumption made in "A problem in the parameterization of large-scale eddies" 272
P. B. WRIGHT: Effects of the quasi-biennial oscillation and the southern oscillation on the northern hemisphere circulation 275
M. LAL: Turbidity parameters for the atmosphere over India 280
G. MICHAELI: Settling velocities of small ice crystals 282

Letters to the Editor

J. R. HOLTON: Comments on "Frictional effects on thermally forced waves" 286
l. J. SHAPIRO: Reply to J. R. Holton 287

Vol. 29
No. 4
August 1977

C. FRANKIGNOUL and K. HASSELMANN: Stochastic climate models, part II. Application to sea-surface temperature anomalies and thermocline variability 289
A. Z. LOESCH: On generation of zonal flows by interacting Rossby waves 306
E. E. BALOGUN: A quantitative method for estimating cloud cover over tropical cyclones from satellite data 317
M. G. HAMILTON: Some aspects of break and active monsoon over southern Asia during summer 335
N. Z. HEIDAM: Airborne measurements of air pollution over Denmark and the adjacent seas 345
R. A. COX: Some measurements of ground level NO, NO_2 and O_3 concentrations at an unpolluted maritime site 356
E. L. DEACON: Gas transfer to and across an air–water interface 363
J. R. E. LUTJEHARMS: Time variations in the spatial scales and intensities of ocean circulation in the vicinity of the Cape of Good Hope 375

Short Contribution

B. R. D. GUPTA and B. SINGH: A power spectrum analysis of the mean daily pressure over the Mediterranean and neighbourhood during November 1967 to April 1968 382

Vol. 29
No. 5
October 1977

P. LEMKE: Stochastic climate models, part 3. Application to zonally averaged energy models 385

Y-T. P. SHEU and P. J. SMITH: Kinematic analyses over eastern Asia during a subperiod of the air mass transformation experiment 1975 393

E. E. BALOGUN: A diagnostic study of cloud distribution and development in hurricane Debbie August 13–19, 1969, from satellite data 402

I. HOLMSTRÖM: Optimization of atmospheric models 415

K. FRAEDRICH, A. BEHLAU, G. KERATH and G. WEBER: A simple model for estimating the evaporation from a shallow water reservoir 428

W. BISCHOF: Comparability of CO_2 measurements 435

J. A. GARLAND and J. R. BRANSON: The deposition of sulphur dioxide to pine forest assessed by a radioactive tracer method 445

G. HOUSEMAN and B. MARTIN: A technique for determining probability distributions for creation and destruction of ozone and other tracer particles 455

P. WELANDER and J. BAUER: On a differentially heated saltwater–ice system 462

P. F. CRAPPER: Forced plume characteristics 470

Short Contribution

P. J. SMITH, D. G. VINCENT and H. J. EDMON, JR.: The time dependence of reference pressure in limited region available potential energy budget equations 476

Vol. 29
No. 6
December
1977

In memoriam, Tor Bergeron 481

H. B. GORDON and D. R. DAVIES: The sensitivity of response of climatic characteristics in a two-level general circulation model to small changes in solar radiation 484

S. GRØNÅS and M. LYSTAD: Solutions of the balance equation with minimum correction of the mass field 502

M. E. FIADEIRO and G. VERONIS: On weighted-mean schemes for the finite-difference approximation to the advection-diffusion equation . . 512

S. HASTENRATH: Hemispheric asymmetry of oceanic heat budget in the equatorial Atlantic and Eastern Pacific 523

J. L. STANFORD: On the nature of persistent stratospheric clouds in the Antarctic 530

G. SHANI and D. COHEN: Air pollution measurements in a semi-arid zone, using neutron activation analysis 535

J. B. JALICKEE and D. R. HAMILTON: Objective analysis and classification of oceanographic data 545

H.-H. KUO and T. ICHIYE: A numerical study of the response of a barotropic ocean to a moving hurricane 561

G. E. B. KULLENBERG: Observations of the mixing in the Baltic thermo- and halocline layers 572

Short Contribution

P. J. EVERSON and J. C. PERFECT: On the determination of the predictability of a four-level geostrophic model using the effects of grid point numerical errors 588

Author Index

Volume 29, 1977

Ananthagiri, B. 8
Assaf, G. 137

Baer, F. 107
Baker-Blocker, A. 245
